Dear All,

The Public Relations Committee of the IFCC Communications and Publications Division (C-PR) has been proudly celebrating the Global MedLab Week (GMLW) since 2022. This annual celebration takes place every April, highlighting the pivotal role Laboratory Medicine Professionals play, a role made especially evident during the pandemic.

For 2025, GMLW will occur from April 21 to 27, with the theme: “Labs Save Lives”. This initiative aims to honor and amplify the vital contributions of our profession and ensure its significance is recognized worldwide. To achieve this, we kindly seek your collaboration and support in engaging your functional unit to participate in this important event.

We invite you and your functional unit to contribute by organizing activities—academic, social, or cultural—or by sharing materials such as audios for podcast, podcasts, videos, photos, or other creative content with IFCC. All submissions should align with the 2025 theme, showcasing the impactful stories and experiences of Labs Save Lives.

We will provide detailed guidelines, including access to a dedicated platform for submitting activities and content. Additionally, our team will be available to support you through email or WhatsApp should you have any questions or need assistance.

Your involvement and your contributions are crucial to the success of this initiative. Together, we can ensure a worldwide celebration of our profession and its life-saving impact.

Thank you for considering this request, and we look forward to your favourable response.

Warm regards,

Prof. Tomris Ozben
IFCC President
